Required examinations for the Anesthesia

1. ECG 12 leads
2. Chest x-ray
3. Laboratory examinations:
 - Complete bloodcount
 - Thrombocyte
 - SGOT
 - SGPT
 - Gamma GT
 - LDH
 - Glucose
 - Carbamide
 - Creatinine
 - Se bilirubin
 - Sodium
 - Potassium
 - Prothrombin
 - INR
4. Urine sample

You can ask for these examinations from your GP but in emergency cases or if there no other possibility you can also require these from our partner in the Szent Ferenc Egészségügyi Központ. We receive the results within 24 hours.

Go on dreaming, while we do the work.
